MADE IN ENGLAND

## Introduction

The model supplied may vary from the image shown. Please note that the general installation process for all deck mounted mixer fittings is the same, and the following guide will take you through the process.

The company reserves the right to continually evolve its product lines without notification. The company will not accept any liability regarding specification changes and their consequences unless previously quoted by the company in writing.

## Aftercare

During installation, extra care must be taken to avoid damaging the fitting or its finish.

## Installation Procedure

NOTE: Certain fitting parts may vary from illustration.

1. Insert Threaded Bar into base of fitting.
2. Place fitting through hole in basin/countertop.
3. Apply Rubber Washer to underside of basin/countertop.
4. Apply metal clamp to underside of basin/countertop.
5. Screw Fixing Nut on to Threaded Bar and tighten.
6. Apply Sealing Washer to underside of basin.
7. Carefully install the inlet pipes (style may vary) in to the fitting. It is not necessary to over tighten these pipes.
8. Earth any new pipes adequately. Seek expert advice if in doubt.
9. Connect water supply pipes to inlet pipes, (ensuring isolation valves (not supplied) are in position.
10. Ensure Tap Valves are in open position.
11. Open Isolating Valves.
12. Turn on water supply and allow to run for a few minutes to flush out any debris.
13. Check for leaks.
